## The European Data Protection Board

Having regard to Article 63, Article 64(1)(f) and Article 47 of the Regulation 2016/679/EU of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (hereinafter “GDPR”),

Having regard to the European Economic Area (hereinafter “EEA”) Agreement and in particular to Annex XI and Protocol 37 thereof, as amended by the Decision of the EEA joint Committee No 154/2018 of 6 July 2018<sup>1</sup>,

Having regard to Articles 10 and 22 of its Rules of Procedure.

Whereas:

(1) The main role of the European Data Protection Board (hereinafter the “EDPB”) is to ensure the consistent application of the GDPR throughout the EEA. To this effect, it follows from Article 64(1)(f) GDPR that the EDPB shall issue an opinion where a supervisory authority (hereinafter “SA”) aims to approve binding corporate rules (hereinafter “BCRs”) within the meaning of Article 47 GDPR.

(2) The EDPB welcomes and acknowledges the efforts the companies make to uphold the GDPR standards in a global environment. Building on the experience under Directive 95/46/EC, the EDPB affirms the important role of BCRs to frame international transfers and its commitment to support the companies in setting-up their BCRs. This opinion aims towards this objective and takes into account that the GDPR strengthened the level of protection, as reflected in the requirements of Article 47 GDPR, and conferred to the EDPB the task to issue an opinion on the competent SA’s (BCRs Lead) draft decision aiming to approve BCRs. This task of the EDPB aims to ensure the consistent application of the GDPR, including by the SAs, controllers, and processors.

(3) Pursuant to Article 46(1) GDPR, in the absence of a decision pursuant to Article 45(3) GDPR, a controller or processor may transfer personal data to a third country or international organisation only if the controller or processor has provided appropriate safeguards, and on condition that enforceable data subject rights and effective legal remedies for data subjects are available. A group of undertakings or group of enterprises engaged in a joint economic activity may provide such safeguards by the use of legally binding BCRs, which expressly confer enforceable rights on data subjects and fulfil a series of requirements (Article 46 GDPR). The specific requirements listed in the GDPR are the minimum items BCRs shall specify (Article 47(2) GDPR). The BCRs are subject to approval from the competent SA, in accordance with the consistency mechanism set out in Article 63 and Article 64(1)(f) GDPR, provided that the BCRs meet the conditions set out in Article 47 GDPR, together with the requirements set out in the relevant working documents of the Article 29 Working Party<sup>2</sup>, endorsed by the EDPB.

<sup>1</sup> References to “Member States” made throughout this opinion should be understood as references to “EEA Member States”.

<sup>2</sup> The Working Party on the Protection of Individuals with regard to the Processing of Personal Data instituted by Article 29 of Directive 95/46/EC.

(4) This opinion only covers EDPB's consideration that the BCRs submitted for the required opinion afford appropriate safeguards in that they meet all requirements of Article 47 GDPR and WP257 rev01 of the Article 29 Working Party, as endorsed by the EDPB<sup>3</sup>. Accordingly, this opinion and the SAs' review do not address elements and obligations of the GDPR mentioned in the BCRs at issue other than those related to Article 47 GDPR.

(5) WP257 rev.01 of the Article 29 Working Party, as endorsed by the EDPB, provides for the required elements for BCRs for processors, (hereinafter "BCR-P"), including the Intra-Company Agreement where applicable, and the application form. WP265 of the Article 29 Working Party, as endorsed by the EDPB, provides for recommendations to the applicants to help them demonstrate how to meet the requirements of Article 47 GDPR and WP257 rev01. Additionally, WP264 informs the applicants that any documentation submitted is subject to access to documents requests in accordance with the SAs' national laws. The EDPB is subject to Regulation 1049/2001<sup>4</sup> pursuant to Article 76(2) GDPR.

(6) Taking into account the specific characteristics of BCRs provided for by Article 47(1) and (2) GDPR, each application should be addressed individually and is without prejudice to the assessment of any other BCRs. The EDPB recalls that BCRs should be customised to take account of the structure of the group of companies that they apply to, the processing they undertake, and the policies and procedures that they have in place to protect personal data<sup>5</sup>.

(7) The opinion of the EDPB shall be adopted, pursuant to Article 64(3) GDPR in conjunction with Article 10(2) of the EDPB Rules of Procedure, within eight weeks after the Chair has decided that the file is complete. Upon decision of the EDPB Chair, this period may be extended by a further six weeks, taking into account the complexity of the subject matter.

<sup>4</sup> Regulation (EC) No 1049/2001 of the European Parliament and of the Council of 30 May 2001 regarding public access to European Parliament, Council and Commission documents.

<sup>5</sup> This view was expressed by the Article 29 Working party in Working Document Setting up a framework for the structure of Binding Corporate Rules, adopted on 24 June 2008, WP154.

## 2 ASSESSMENT

3. The draft BCR-P of Luxoft Group cover direct or indirect intra-group transfers of personal data from the EEA between members of the Luxoft Group and the subsequent processing of such data as a processor by a member of Luxoft Group outside the EEA.
4. Concerned data subjects include employees of Luxoft Group, including managers, directors, shareholders, affiliates, officers, trainees, interns, representatives and private entrepreneurs; job applicants; visitors (i.e. guests, directors, members of Board of Directors, members of top manager's families or other important partners); and existing and potential end customers or clients of Luxoft.
5. The draft BCR-P of Luxoft Group have been scrutinised according to the procedures set up by the EDPB. The SAs assembled within the EDPB have concluded that the Luxoft Group draft BCRs-P contain all elements required under Article 47 GDPR and WP257 rev01, in concordance with the draft decision of the BCR Lead SA submitted to the EDPB for an opinion. Therefore, the EDPB does not have any concerns that need to be addressed.

## 3 CONCLUSIONS / RECOMMENDATIONS

6. Taking into account the above and the commitments that the group members will undertake to be bound by the BCRs, the EDPB considers that the draft decision of the BCR Lead SA may be adopted as it is, since the draft BCRs -P of Luxoft Group contain appropriate safeguards to ensure that the level of protection of natural persons guaranteed by the GDPR is not undermined when personal data will be transferred to and processed by the group members based in third countries. Finally, the EDPB also recalls the provisions contained within Article 47(2)(k) GDPR and WP 257 rev.01 providing the conditions under which the applicant may modify or update the BCRs, including updates to the list of BCRs group members.

9. Pursuant to Article 70(1)(y) GDPR, the Baden-Wurttemberg Supervisory Authority shall communicate the final decision to the EDPB for inclusion in the register of decisions which have been subject to the consistency mechanism.
10. In accordance with the judgment of the Court of Justice of the European Union C-311/18<sup>6</sup>, it is the responsibility of the data exporter in a Member State, if needed with the help of the data importer, to assess whether the level of protection required by EU law is respected in the third country concerned, in order to determine if the guarantees provided by BCRs can be complied with in practice, taking into consideration the possible interference created by the third country legislation with the fundamental rights. If this is not the case, the data exporter in a Member State, if needed with the help of the data
